None

**CABINETRY/MILLWORK**  
Silver Bow Woodcraft

AFTER LOOKING AT ALL THESE AMAZING KITCHENS IT'S HARD NOT TO DREAM OF YOUR OWN PERFECT SPACE; BUT WHERE DO YOU START? WELL, THE EXPERTS SUGGEST THAT YOU START WITH THESE THREE IMPORTANT STEPS.

First, assess your needs and think about a layout that will suit your lifestyle. Then once you have a good idea of what you need, put together a plan that includes all aspects of your renovation and budget accordingly. With this in hand, now is the time to consider working with a professional who can assist you with your project—even if you are going the DIY route—as they will know whether your dreams match your budget and if not, they can help you square it up.
